

MASTERDRIVE

POWER TRANSMISSION PRODUCTS

HVAC & Air Movement

Complete Product Offering

MasterDrive serves the HVAC and Air Movement marketplaces with a full line of sheaves, bushings, and belts. From light intermittent service to heavy duty industrial blowers, evaporators and cooling tower applications MasterDrive meets the needs.

AL Light Duty Sheaves are bored to size and are suitable for fans, air conditioning, and furnace blowers.

Our **AK and BK** series of **bored to size** sheaves are available in single or two groove designs from 1.75" to 18.75" OD and bores from 1/2" through 1-7/16".

Where a bushed sheave is preferred we offer the **AKH & BKH** products furnished to accept an H-Bushing. Available in 1 and 2 grooves

HR Reverse mounting styles are also available.

Our **Variable Pitch sheaves (VL, 1VP & 2VP)** allow for easy speed change capability and use 3L, 4L, 5L as well as A, B, and 5V Belts.

Trying to couple a fan to a shaft? You'll find our bushed **WELD-ON Hubs** useful. Available in QD, TB & DST Styles

Where the application demands are rugged, and torques and shafts sizes dictate flexibility in mounting our classic and **Heavy Duty Sheaves** meet the task. Heavy Duty cast iron sheaves available **QD**, **TB Taper Bushed**, or **DST-Double Split Taper** designs. They can accept A/ B, C, 3V, 5V, and 8 V belts. One thru 12 groove configurations with outside diameters of 2.2-71" cover the gambit. Naturally, we stock all of the Bushing types for mounting of the Sheave options. Have it Your Way!

MasterDrive carries a deep stock of **QD Flanged** bushings, **DST-Double Split Taper** Bushings, and **TB Tapered Bushings** for flush mounting and no exposed bolts. Inch and metric bores are available.

Need help picking the optimum Sheave size and type, Bushing mount and Belts? See all the options in MasterSelect.

Includes calculations for VL & VP variable pitch sheaves!

Breadth and Flexibility in mounting, a great looking phosphate coated sheave with a baked enamel finish compliment your equipment.

MasterDrive carries over 7,000 part numbers in stock and operates 12 Regional warehouses for excellent product availability and minimum transit time and costs. We fill 90% of orders from stock and ship most the same day.
